Three against two and two against three. Sadly many people are no strangers to family feuds. In past generations, things like land and inheritance were major causes of family disagreements, causing parents to fall out with sons or daughters or siblings to stop speaking for years. Differences of opinion can arise over beliefs or choices, sometimes causing immense hurt on both sides. Yet, there will always be conflicts in family life as we try to navigate these situations but we have a choice – do we allow anger and hurt to shape our interactions with loved ones, or do we listen with respect and try to understand and find common ground? Peace can be hard won, particularly in families where there are so many different personalities and opinions. Let us pray for wisdom and patience to navigate the tougher times.

The Secret of 60 years of marriage

There was once a man and woman who had been married for more than 60 years. They had shared everything. They kept no secrets from each other – except that the old woman had a shoe box in the top of her closet that she warned her husband never to open or ask her about. For all of these years he had never thought about the box, but one day the little old woman got very sick and the doctor said she would not recover. In trying to sort out their affairs, the little old man took down the shoebox and took it to his wife's bedside. She agreed that it was time that he should know what was in the box. When he opened it he found two crocheted doilies and a stack of money totalling \$25,000. "When we were to be married", she said "My grandmother told me the secret of a happy marriage was to never argue. She told me that if I ever got angry with you, I should just keep quiet and crochet a doily". The old man was very moved and had to fight back tears. Only two doilies were in the box. She had only been angry with him two times in all those years of marriage!!! He almost burst with happiness. "So he said, that explains the doilies, but what about all of this money? Where did it come from?" "Oh, she said "that's the money I made from selling the doilies"
